

ISTE-646 Assessment Instructions

Using the provided comp and the requirements listed below, replicate the appearance of the comp using HTML and CSS.

Comp

Global Requirements

- ☐ The HTML must follow the HTML5 standard.
- ☐ The CSS must be external.
- ☐ The HTML must validate.
- ☐ The CSS must validate.

HTML Requirements

- ☐ Do not use any HTML attributes for styling. E.g. no "width", no "bgcolor", no "align", et cetera. All styling must be done in CSS.
- ☐ The Title of the HTML document must be as shown in the comp. (Don't miss it!)

CSS Requirements

- ☐ All content is in a block that is restricted to the center 80% of the viewport.
- ☐ The background color of the entire viewport is: #A5A8CB;
- ☐ The text color of all text in the entire webpage is: #333333;
- ☐ The width of the table is limited to no more than 300px;
- ☐ The background color of the table caption is: #44436B;
- ☐ You may approximate text weight and sizes.

Hints

- The "User Data" text is not in a *table data* cell. It's a *caption*.
- The table column and row headers are not *table data* cells. They are *table header* cells.
